EDUCATION

University of Wisconsin-Madison

Sep 2021 – May 2025

B.S. in **Data Science** • Minor in **Computer Science** • Dean's List

Madison, WI

EXPERIENCE

AI Engineering & Data Consultant

Mar 2026 – July 2026

Kubrick Group

London, UK & New York, NY

- Utilized agile methodologies to deliver **predictive models** embedded in web apps with **agentic chatbots**.
- Designed, built, and utilized **RESTful APIs** to serve ML Models.
- Maintained and **deployed container images to Kubernetes clusters** with Azure.
- Inspected, cleaned, and visualized large datasets using production grade **Python**.

ML Training Expert (Independent Contractor)

Nov 2024 – Nov 2025

Outlier AI

New York, NY

- Coding, data annotation, and quality assurance** for large-scale AI projects.
- Leveraged English and critical analysis skills to **refine model outputs**.

Package Development Intern – clubSandwich

Feb 2025 – Aug 2025

University of Wisconsin-Madison Open Source Program Office

Madison, WI

- Developed the **R package clubSandwich**, which provides **cluster-robust variance estimators** through an **object oriented design** that supports many other packages.
- Implemented new features**, wrote **unit tests**, updated documentation, and addressed GitHub issues.
- Authored and deployed **online training material** for future interns to quickly set up their systems and learn the basics of R package development.
- Presented contributions via **slides, a live demo, and a webpage deployed via GitHub Pages**.

Senior Camp Counselor

Jul 2023 – Aug 2023; Jun 2024 – Aug 2024

YMCA of Greater New York

New York, NY

- Led and collaborated** in a dynamic, team-focused environment, **mentoring junior counselors** while fostering communication and teamwork

Office Staff

Jan 2019 – Apr 2021

TaxpayerServices NYC, Inc.

New York, NY

- Organized client documents**, answered calls, and responded to emails
- Set up and maintained **hardware and software systems**

PROJECTS

Deep Learning for Classifying Images | *Python, PyTorch, Git, GitHub*

Mar 2025 – May 2025

- Built a **hybrid CNN-Transformer model** for image recognition
- Implemented an **automated ETL pipeline to clean, load, and augment data** before feeding it into the model
- Trained and evaluated multiple models, **cross-comparing results** in a research paper

US Migration Flows | *R, R Markdown, Tidyverse, Shiny, tigris, sf, Leaflet, Git, GitHub*

Feb 2025 – May 2025

- Developed a **reproducible ETL pipeline** that accessed migration data via an **API**
- Conducted **multi-year analyses** with extensive data processing, mapping, and **interactive visualizations**
- Produced a **well-formatted report** combining **statistical analysis** and visualizations

Twitter Sentiment & Topic Modeling | *Python, Pandas, VADER, pyLDAvis, LaTeX*

Oct 2024 – Dec 2024

- Analyzed **2M tweets** using **NLP** and **topic modeling techniques**
- Co-authored research paper** documenting methods, findings, and visualizations

Additional projects are available at pekofsky.github.io/projects

TECHNICAL SKILLS

Languages: Python, SQL, R, Java, JavaScript, HTML, CSS, Julia, MQL

Libraries & Frameworks: PyTorch, pandas, numpy, streamlit, scikit-learn, FastAPI, Pytest, Django, Flask, Selenium, jekyll, testthat, JUnit, ggplot2, dplyr, devtools

Developer Tools: Git, GitHub, VSCode, uv, RStudio, Google Colab, Eclipse

Platforms & Services: Azure DevOps, Firebase, Google Cloud Platform
